Programme Objectives

DAAD (German Academic Exchange Service), as a publicly funded, selfgoverning organisation of the institutions of higher education in Germany, promotes international academic exchange as well as educational co-operation with developing countries through a variety of funding and scholarship programmes.

As part of the „In-Country/In-Region Scholarship Programme“ DAAD offers scholarships for PhD studies. The programme is funded by the German Federal Ministry of Economic Cooperation and Development (BMZ) and aims at university staff in the first line, without neglecting the public sector demand of academically trained personnel.

The target group for scholarships are graduates and postgraduates from Sub-Saharan Africa with a first academic degree if applying for a Master's programme, or with a Master's degree if applying for a doctoral programme who want to pursue Master's or PhD courses in their home country (so called **In-Country scholarships**) or in another Sub-Saharan African country (so called **In-Region scholarships**).

It has been agreed upon that DAAD cooperates with Moi University by offering **up to 4 In-Country scholarships and up to 1 In-Region scholarship** for PhD studies at **Moi University** for the intake 2019.

The awarding of scholarships will be subject to the provision of funds.
